

ASCA Careers

Open House
July 6 and 12, 2016

ASCA is seeking international students who are interested in the biomedical communication business. We offer quality translation and other language services to a variety of customers, including medical institutions and pharmaceutical, biotechnology, and chemical companies. ASCA aims to advance and explore our activities to fulfill our mission: to support the global development of medicine and medical treatments. Join us if you are highly motivated, skilled and ready to take up the challenge of competing in the global market.
